

VARIATION PACKAGING

ICC The Compliance Center is a leader in UN Performance Packaging solutions since 1991. Our 4GV Variation packaging line continues to be one of our best sellers. All of our packaging meets or exceeds the testing requirements set forth in the regulations, including TDG, 49 CFR, ICAO/IATA and IMDG.

Our 4GV boxes, also known as Variation Packaging, are available in a variety of sizes to meet your needs. If you do not have a pressure tested inner container, you can add our pressure bags to meet the requirements for air transportation.

Each box is sold with the mandatory liner bag and vermiculite is sold separately.

Cushioning Distances	
Code	Description
TB	Top and Bottom
S	Side
T	Top
B	Bottom

Code	Description	UN Marking	Gross Mass	Cushioning Distances	Price
PK-3SP	9 1/8" x 9 1/8" x 9 1/8"	4GV/X7.7	7.7 kg	TB 1 1/2" : S 1 1/8"	\$13.00
